WHAT IS SYTA? | SYTA is the premier professional trade association that promotes student and youth travel worldwide. Our Members are companies that work with teachers and educators to provide safe educational travel for students.

OUR MISSION | SYTA is the premier association of businesses dedicated to providing life-enhancing travel experiences to students and young people. We instill confidence in our travelers by establishing quality and safety standards for travel providers, and we empower our members through advocacy, education, training and networking opportunities.

SYTA'S SAFETY COMMITMENT | SYTA has undergone a significant expansion of its student travel safety program, including the establishment of new comprehensive standards for student travel operators and suppliers and the creation of a certification program for individuals and companies specializing in student travel.

In 2020, SYTA launched the Certified Student Travel Organization certification and re-established the requirements for the Certified Student Travel Professional certification. CSTO & CSTP provide a framework for student travel organizations and their staff to learn, train, and guide their clients—in thorough safety standards and protocols. SYTA members actively participate in health, safety and risk management measures that are in place for student travel.

CENTER FOR STUDENT TRAVEL SAFETY | SYTA's Center for Student Travel Safety leads the industry in the enhancement and elevation of health and safety protocols and crisis readiness for student group travel experiences. The Center provides access to practical training, shared resources and best practices for members, while maintaining involvement in legislation aimed at improving student travel safety worldwide. Certification programs are administered through the Center for Student Travel Safety. **Look for the CSTO logo next to companies that have received certification as a Certified Student Travel Organization. This certification is awarded to companies that have met or exceeded the minimum of 25 safety standards established by the Center and SYTA.**

SAFETY RESOURCE CENTER | SYTA believes student travel safety is a partnership between student travel companies and their clients. To that end, SYTA provides education, research and resources to educators through *Teach & Travel* magazine, e-newsletters, and online.

THE LEADING SOURCE
FOR EDUCATORS WHO PLAN
STUDENT TRAVEL

For young people, travel is an education in itself. It helps them build self-esteem, independence, tolerance and cultural understanding, while breaking down barriers to a child’s personal, educational and social development. Patterns and habits embraced when traveling at an early age are known to influence future decisions. The benefits of travel go beyond education. Increasingly, governments and businesses are recognizing the positive effects of youth travel as a powerful life experience that promotes economic development, job fulfillment and cultural understanding.
